#CCSACon

# Session Objectives

- Discuss best practices which can improve your application & lottery management processes to deliver an equitable and transparent family experience
- Better understand how automated tools can help you gain deeper insights into their applicants, improve lottery efficiency, and increase data integrity
- Share with and learn from your colleagues

# Agenda

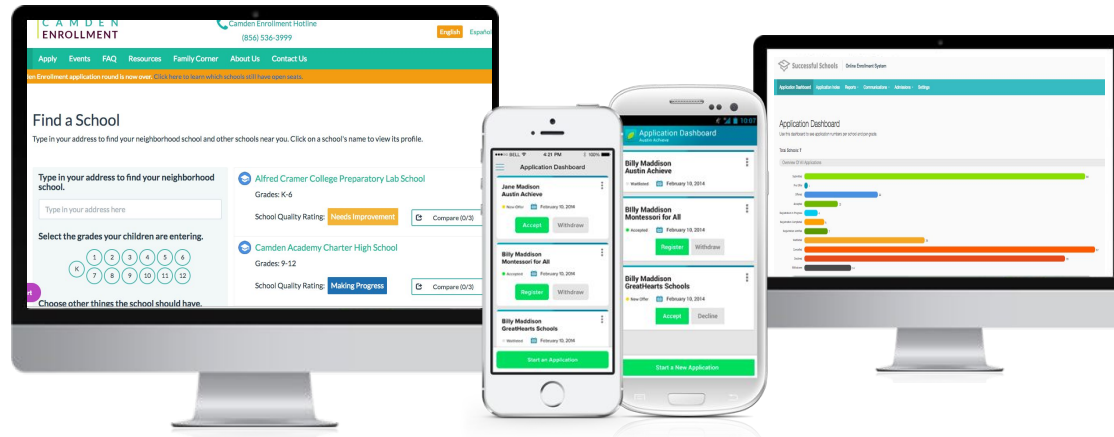

- SchoolMint Overview
- Partner Shares
- Panel Discussion & Group Activities
- Wrap-up and Next Steps

# Partner Share

What are you hoping to  
take away from this  
session?

# An online and mobile student enrollment and school choice platform for K12 Schools

## Solutions for district, charter, and independent schools

\*Native iOS and Android Applications\*

# California Charter Schools & SchoolMint

*"SchoolMint has revolutionized the way we do enrollment. We used to track everything on spreadsheets & having the database has been wonderful. From application, lottery, registration and re-enrollment, it just makes sense."*

Donna Walsh  
Rocklin Academy

*"Our schools are able to better manage the application process from start to finish, plus SchoolMint makes the process significantly easier and more intuitive for our families. I would recommend SchoolMint to any charter management organization."*

Charlie Wolfson  
Alliance

# Contemplating Going Online?

What to consider?

# Why Go Online to Increase Transparency?

- **Efficiency & Time Savings**

- One system for application processing, lottery & waitlist, registration
- Cut down on data (re)entry for paper applications
- Lottery configuration & preparation

- **Improved Data Quality, Analytics and Transparency**

- Real-time access and updates
- Compliance, auditing, accuracy
- Reporting & forecasting

- **Expanded Accessibility/Equitability for Families**

- Mobile & multilingual access
- Real time access to application status - 7x24
- Communications - voice, text, email

# How to Go Online to Increase Transparency?

- **Change Management**

- Identify and engage all stakeholders
- Secure buy-in from schools
- Understand your families' digital literacy and potential inhibitors
- Anticipate changes that will occur - have a plan

- **Family Training & Support**

- Consider additional support via hotline or email
- Provide laptops or devices to assist with application completion
- Offer multilingual systems and support
- Prepare families for how an automated lottery and offer process works

- **Anticipate time for data validation**

- Allow time to validate data especially after open enrollment period ends and before lottery takes place
- Run reports to check for errors and inconsistencies

## How to Measure Success?

- Applications counts
- Staff and parent satisfaction
- School satisfaction with central office
- Lottery timing and efficiency
- Applicant conversion metrics
- Reporting turnaround time
- Compliance & audit metrics
- Others?
